RESIDENTIAL DEGREE COLLEGE (BOYS) KARIMNAGAR
B3: Computer Science
Lab Name: PROGRAMMING IN C
 suggest two (three) members using if and conditional operator
 reverse of a given number
 prime number check 3. In a while it is given by user
 sum of a quadratic equation using switch statement.
 length of stars as follows (take number of lines from user)

 **
 *
 and similar elements in a given list of numbers
 product of two matrices
 LCD of two numbers using iteration and recursion
 sum of string elements
 take the call by value and the call by reference concepts
 a table including the number of occurrences of each alphabet in
 user input
 sum of data type counts
 user use of string functions using & header file
 file and records for number of characters in a file
 structure Student containing fields for Roll No., Name, Class,
 age 10 students and store them in a file
 use 10 students and store them in a file
 an existing text file and copies it to a new text file with all lowercase
 characters in the text file and all other characters unchanged
