OBJECTIVES OF ICT IN EDUCATION

Information and Communications Technology (ICT) can impact student learning when teachers are digitally literate and understand how to integrate it into curriculum. Schools use a diverse set of ICT tools to communicate, create, disseminate, store, and manage information. The main purpose of using ICT for classroom teaching is to optimize the learning outcomes of teaching..

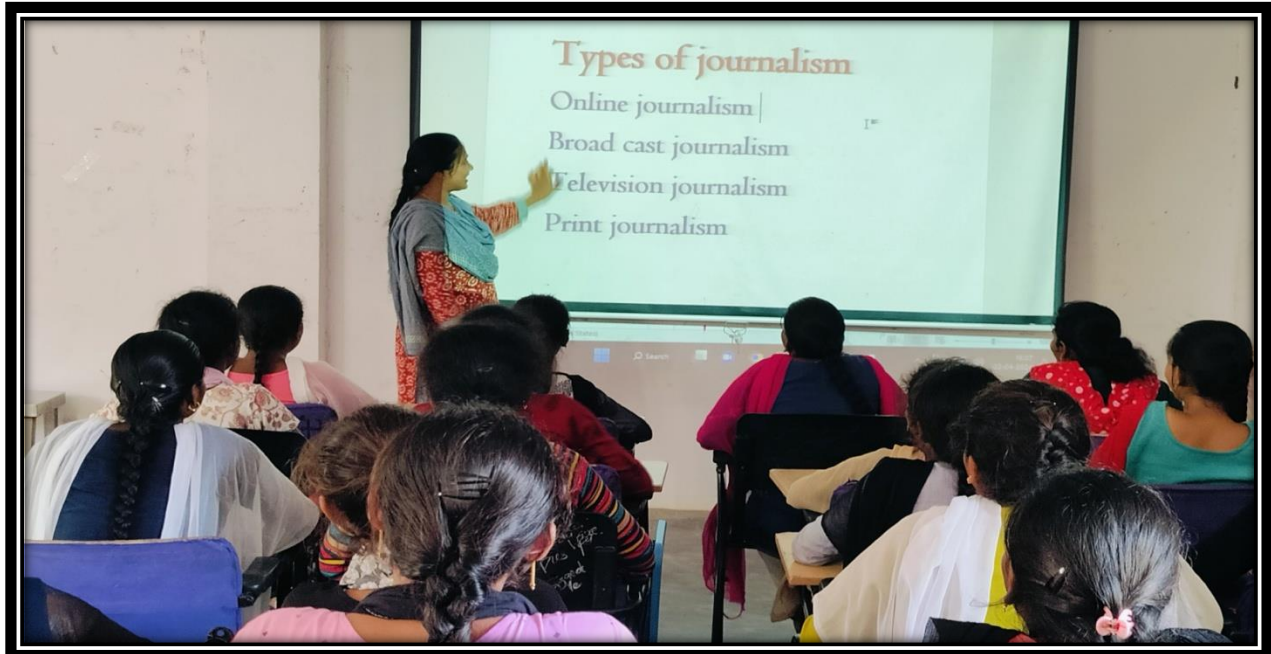

- It promotes student flexibility and autonomy. ...
- It encourages critical thinking. ...
- It facilitates communication between teachers and students. ...
- Increased classroom productivity and collaborative work. ...
- It stimulates motivation.

What is journalism and mass communication?

The activity of gathering, assessing, creating and presenting news and information is called journalism. mass communication is the study of spreading information to a large audience through various means of communication and all of these include channels this is part of journalism and mass communication . in present years these two aspects have evolved into an interactive concept that touches nearly all aspects of human life
