# Easy To Grow Mosquito Repelling Plants

Oliviasolutions.com

- CATNIP**: A green leafy plant with serrated edges.
- BEEBALM**: A plant with bright pink, feathery flowers.
- MARIGOLD**: A cluster of bright yellow and orange flowers.
- AGERATUM**: A cluster of small, purple, daisy-like flowers.
- CITRONELLA**: A clump of tall, green, grass-like blades.

**MOSQUITOES HATE THESE PLANTS!  
PUT THEM ON YOUR PATIO OR IN YOUR GARDEN AND  
WATCH THOSE PESKY MOSQUITOES DISAPPEAR!**

**ROSEMARY**

**MARIGOLDS**

**LEMONGRASS**

**LEMON BALM**

**LEMON THYME**

**CATNIP**

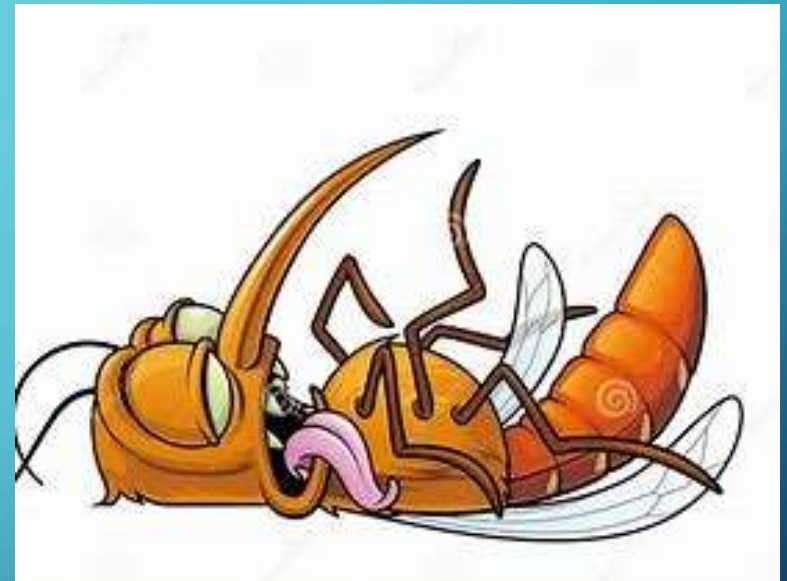

**GARLIC**

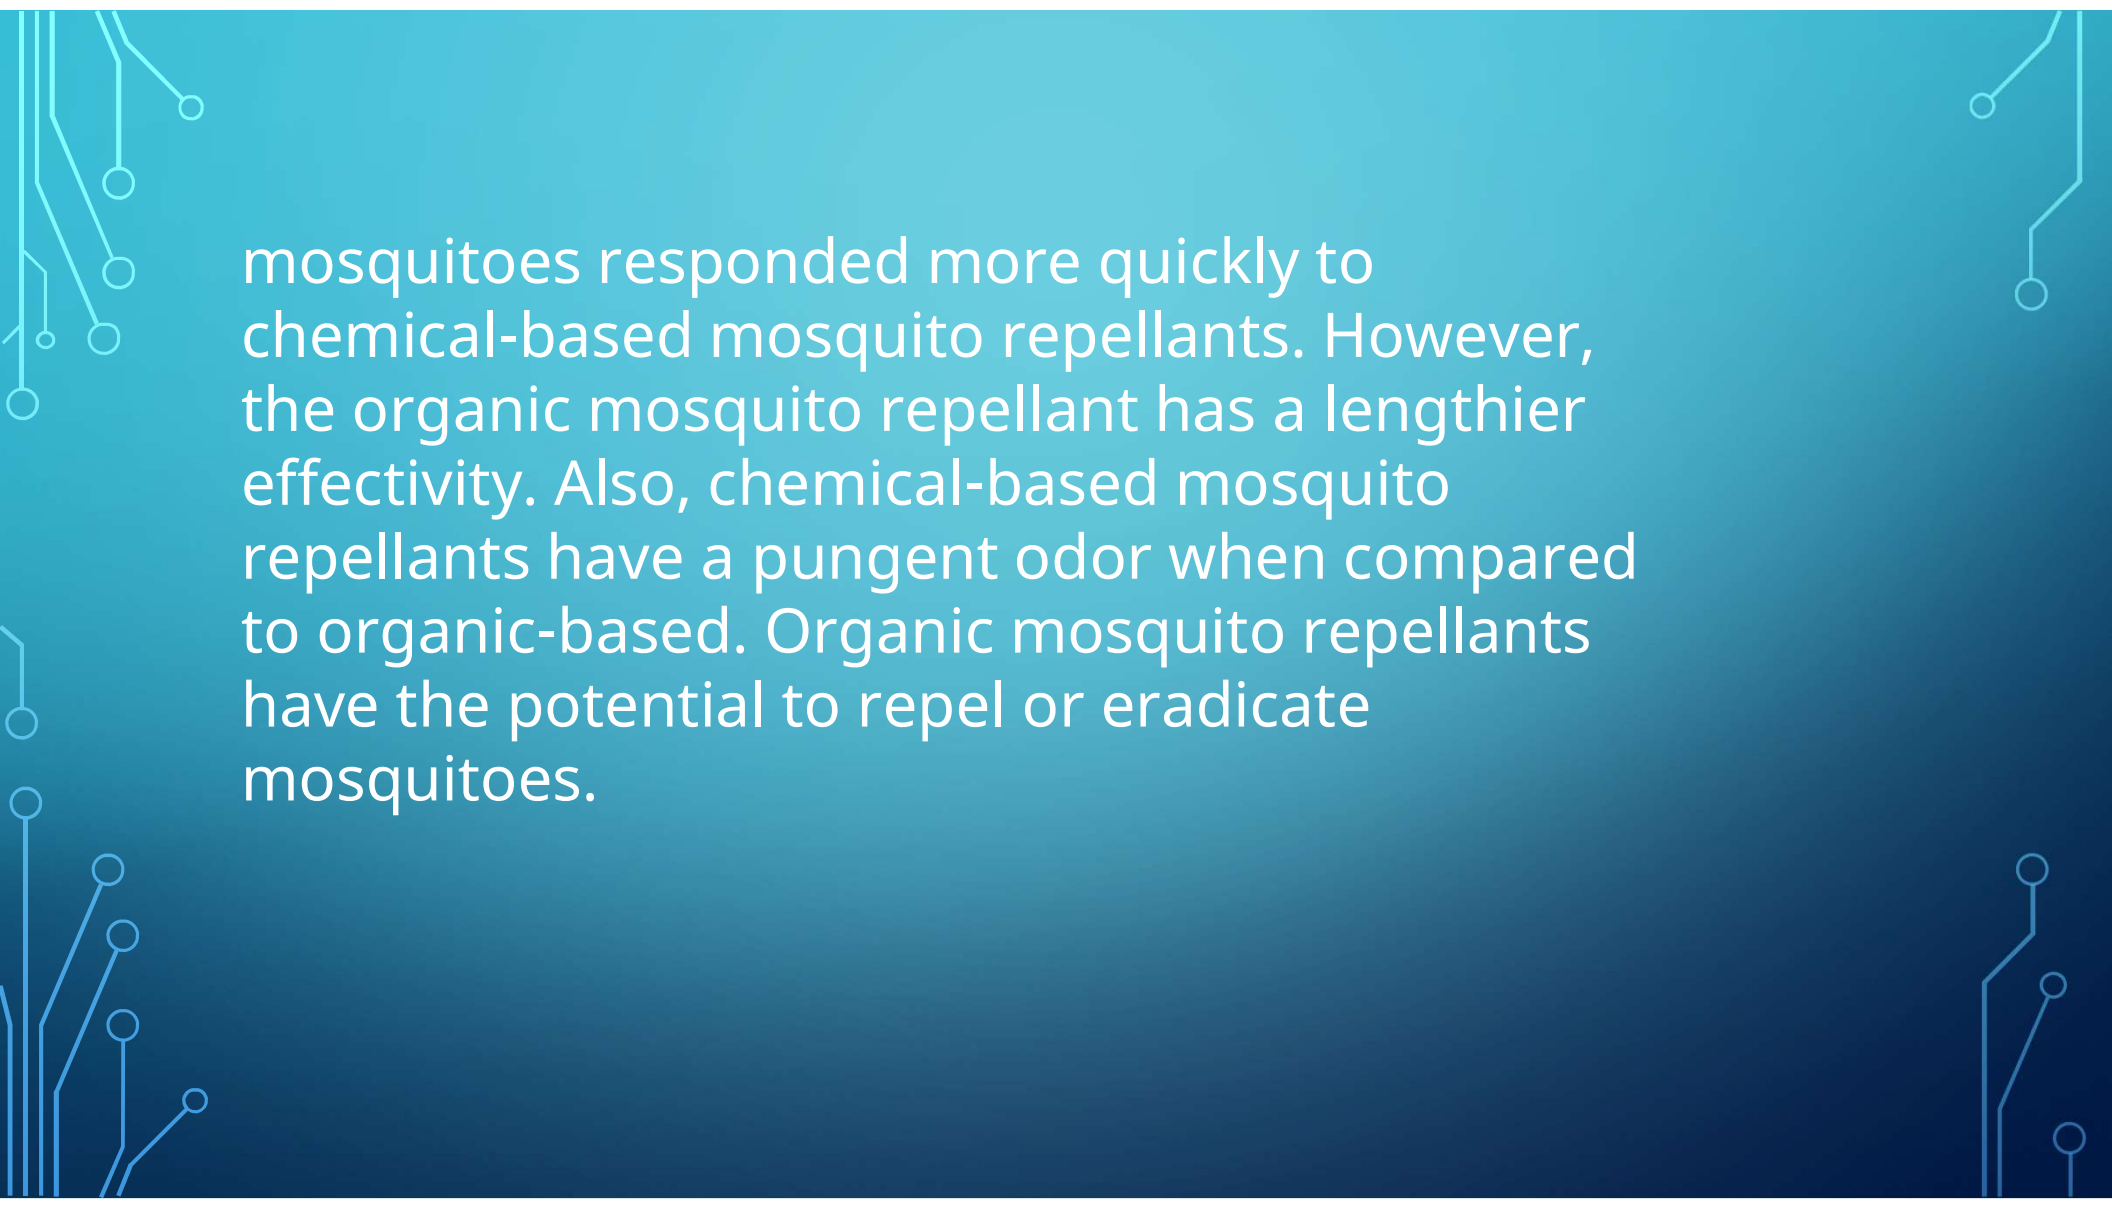

**LAVENDER**

**BASIL**

mosquitoes responded more quickly to chemical-based mosquito repellants. However, the organic mosquito repellant has a lengthier effectivity. Also, chemical-based mosquito repellants have a pungent odor when compared to organic-based. Organic mosquito repellants have the potential to repel or eradicate mosquitoes.

The background is a teal-to-blue gradient. In the corners, there are white line-art patterns resembling circuit boards or neural networks, with lines connecting to small circles.
