Title of the practice :-

Professional skill re-development among students.

Objective of the practice :-

In the changing world scenario with regard to industry and the job market, there is now an overpowering need for skilled workers. However, the definition of "skill" in India, and the world in general, has also changed over recent years.

About 90 per cent of employment opportunities require professional skills.

Only 20 per cent of our graduates get employed.

The rest are unable to get sustainable employment due to the lack of employable skills.

In the present context of globalization, the demand for skilled and multi-skilled workers has increased.

Therefore in the context of developing countries, such as India, there is a critical need for quality skill development and training.

The practice :-

It is very relevant to classify here that there are many types of students available in our college. All have different family backgrounds.

Some students are those, who are very poor & their economic position is very pitiable.

In such condition, it was a tough task to impart the special training on professional skill other than college campus.

Evidence of success:-

Among so many trainees 10-20% became very serious & shows their interest for further training and implementation of courses based on professional skill development.

Problems Encountered & Resources Required :-

It is very important for the Teacher in charge to check all the activities created by the trainees and supervised by the experts. He/she should focus & decide to provide better & advance teaching practices to the trainees with the help of more trained faculties.
