

BACHELOR OF COMMERCE:

Bachelor of Commerce is a 3-year long degree course in CBSE pattern. For 11th & 12th standard, you choose to specialize in arts, commerce or science. Commerce students go on to do B.Com. However, students of arts and science can also change streams and move to B.Com. Though most commerce graduates get decent careers, they cannot grow beyond a certain point. However, combining B.com with a specialization opens doors for a successful career.
