

## BEST PRACTICES FOR TEACHING & LEARNING

Best practices for teaching and learning integrates the wealth of institutional knowledge with current educational research. This resource offers research-based strategies for helping students learn in all grade levels and content areas.

### Essential Areas ::

- Create a Student Centered Learning Environment.
- Examine how physical set-up and teacher role affects student expectations
- Build relationships that promote a safe and positive environment in which students are responsible, self-motivated and self-evaluating.

### Plan and teach for Student learning:

- Plan assignments and assessments in alignment with standards of learning
- Purposefully plan to adjust teaching practices to meet the needs of individual students
- Employ teaching strategies, techniques and resources that meet the needs of all students.
- Be responsive to the variety of ways students demonstrate thinking and learning

### Assess Student learning.

- Adapt teaching, based on evidence, to meet the needs of the student
- Check student progress in meeting standards and learning goals.

- Actively involve students in assessment to promote continuous learning ; and inform students, parents and others about student achievement.
