Department of Botany

The **Certificate Course in Olericulture and Floriculture** is designed to provide specialized knowledge in the fields of vegetable and flower cultivation. This short-term program focuses on the scientific principles, techniques, and commercial aspects of growing vegetables and ornamental plants. It is ideal for students, farmers, horticulturists, and gardening enthusiasts who wish to enhance their expertise in these fields.

Course Objectives

- To introduce the principles of **olericulture (vegetable cultivation)** and **floriculture (flower production)**.
- To provide hands-on training in nursery management, cultivation techniques, pest and disease control, and post-harvest handling.
- To promote sustainable and commercial vegetable and flower farming practices.
- To explore career and entrepreneurial opportunities in the horticulture sector.

Career Opportunities

Upon completion, participants can explore careers in:

- **Horticulture and Agriculture Farms**
- **Greenhouse and Nursery Management**
- **Landscaping and Garden Design**
- **Floral Industry (Bouquet and Event Decoration Business)**
- **Organic Farming and Agribusiness**
