

# ECO CLUB

## INTRODUCTION:-

Eco clubs play a very important role in creating awareness about environment among the students. It is a platform where we get knowledge about environment and environment related issues, problems etc.

The school environment club should be seen as the driving force behind all the environmental and sustainable activities at the school. Organizing, Publicizing, Promoting and Monitoring all environmental sustainable events, activities and problems. It is a wonderful way for the young people to develop a sense of ownership, school pride, adding to the community spirit. It gives students a real sense of responsibility towards environment.

S.NO	NAME OF THE FACULTY	DESIGNATION	ROLE
1.	CH. APARNA	DL IN BOTANY	CO-ORDINATOR
