MATHEMATICS QUIZ :AY 2022-2023

Mathematics quizzes challenge the mind and sharpen one's number skills. They range from simple arithmetic to complex calculus, each question a step on the ladder of mathematical mastery. Picture a classroom, students huddled over papers, pencils scratching away as they navigate through algebraic expressions and geometric proofs. The clock ticks, a silent reminder of the time-bound nature of this intellectual pursuit. Each quiz is a mosaic of numbers and symbols, a test of logic and reasoning. In the world of mathematics, quizzes are not mere assessments; they are gateways to understanding the language of the universe.

The Math Quiz for college students was conducted on 14th March 2023 and for MPC II year students on 14, march, 2023 from 4.00pm to 5.00pm in the new seminar hall. 16 students participated in the Quiz. There were 4 teams in all comprising four teams from girls. Selection of the participants was done in a very fair, planned and systematic manner. Selected candidates were informed and made to prepare rigorously before representing their respective houses.
