Designation: DL in Computer Science Qualification: M.Tech Email-id. : rajitha.bonagiri@gmail.com Experience : 14years Date of Joining this Institution: July, 2024About YourselfMy interest in computer science began when I first learned to code in programming language or project, and I've been fascinated by it ever since. I have experience with internships, projects, and various programming languages, and I'm particularly passionate about areas like AI and web development. Through this course, I hope to deepen my knowledge in these fields, as I aspire to achieve my long- term career goals. I also aim to keep in touch with the latest developments in the communication field.EducationMasters: M.Tech Bachelors: B.TechAchievementsQualified in NET, SETSelected Publications1. Dengue symptoms classification analysis with improved conditional probability decision analysis. 2. Automated Prediction of Behaviours and Trends in Data Mining. 3. Useful Estimated K-Adjacent Nearer Enquiries With Place And Secure Query. 4. Concerning a Numerical Structure for Expert	80.7347.5	Name : RAJITHA BONAGIRI
Qualification: M.TechEmail-id.: rajitha.bonagiri@gmail.comExperience : 14yearsDate of Joining this Institution: July, 2024Research Interests: Machine learning & Deep LearningAbout YourselfMy interest in computer science began when I first learned to code in programming language or project, and I've been fascinated by it ever since.  Automated Prediction of Behaviours and Trends in Data Mining. Useful Estimated K-Adjacent Nearer Enquiries With Place And Secure Query. Concerning a Numerical Structure for Expert 	Selected Publications	1. Dengue symptoms classification analysis with
Data Mining. 3. Useful Estimated K-Adjacent Nearer Enquiries With Place And Secure Query. 4. Concerning a Numerical Structure for Expert		improved conditional probability decision analysis.
 3. Useful Estimated K-Adjacent Nearer Enquiries With Place And Secure Query. 4. Concerning a Numerical Structure for Expert 		2. Automated Prediction of Behaviours and Trends in
Place And Secure Query. 4. Concerning a Numerical Structure for Expert		Data Mining.
4. Concerning a Numerical Structure for Expert		3. Useful Estimated K-Adjacent Nearer Enquiries With
		Place And Secure Query.
Anonymity in Sensor Systems		4. Concerning a Numerical Structure for Expert
Thiony integration by sterios		Anonymity in Sensor Systems

Courses Handled	1. C Language.
	2. Data structures through C++.
	3. Formal Languages and Automata Theory.
	4. Operating System.
	5. Mathematical Foundations of Computer Science.
	6. Design and Analysis of an Algorithm.
Additional Responsibilities	1. TASK Coordinator from College.
	2. Website Incharge.
