

ROCKET

Department of chemistry was conducted webinar on ROCKET.

A ROCKET is a vehicle that uses jet propulsion to accelerate without using any surrounding air. Rockets for military & recreational uses date back to at least 13th century china. Rockets are used for fire work, muscels, and other Weaponary.

MATHS MODELS PREPARATION

Students are prepared different maths models on different concept its very intrest to learn the subject. Based on this model student can understand the subject basic things its very useful for comppititive exams by uses this models non-maths students can also intest to learn the topics easily.

ZOOLOGY MODEL PREPARATIONS

Students are prepared on zoology models on different concept its very interest to do this zoology models.

The following nervous system, human heart, nitrogen cycle, students are prepared interestly by preparing this models.

CHEMISTRY MODEL PREPARATION

Students are prepared on Chemistry models on chemistry models on different concepts of chemistry.

- In this subject Paracetamol model prepared by students.
- Paracetamol is a medicine used to treat mild to moderate pain.
- Students are interested on this model.

BOTANY MODEL PREPARATION

Students are prepared botany models on different concepts of Botany. In this Botany model “DNA Replication” “cell structure” models are prepared well.

PHYSICS MODEL PREPARATION

Students are prepared on physics models with different concepts.

In this physics subject motions are prepared. Students are participated interestedly.
