FIELD VISIT

DATE: 05/01/2025

The Department of Zoology and Microbiology took final year and second year students of MZC to visit wildlife sanctuary, pocharam on 31/01/2025. This wild life sanctuary is a home for diverse species like deers, peacocks, leopards and offers excellent bird watching opportunities with numerous migratory and resident bird species. We spotted several deers and peacock during our visit and our guide mentioned that they have around 300 deers, and it's a breeding center.

Thank you.
