

## **TELANGANA TRIBAL WELFARE RESIDENTIAL DEGREE COLLEGE FOR WOMEN SIRICILLA**

### **PRAKUTHI CULB:**

#### **Introduction:**

The Eco Club, managed by degree students, is a vibrant initiative aimed at promoting environmental awareness and sustainability within our campus community. With a focus on engaging students in meaningful eco-friendly activities, the club has made significant strides in fostering a culture of environmental responsibility.

#### **Activities and Initiatives:**

1. Awareness Campaigns: The club organizes regular awareness campaigns to educate students about pressing environmental issues such as climate change, deforestation, and waste management. These campaigns include workshops, seminars, and awareness drives.

### **Tree Plantation Drives:**

Recognizing the importance of trees in mitigating climate change and preserving biodiversity, the eco club frequently organizes tree plantation drives both on-campus and in nearby areas. This initiative not only contributes to carbon sequestration but also instills a sense of environmental stewardship among participants.

## Waste Management Programs:

To address the challenge of waste management, the eco club implements various programs such as waste segregation campaigns, recycling initiatives, and composting workshops. By promoting responsible waste disposal practices, the club aims to reduce the environmental impact of our campus community.

4. Biodiversity Conservation: Through partnerships with local conservation organizations, the eco club actively participates in biodiversity conservation efforts. This includes organizing field trips to nearby natural habitats, conducting wildlife surveys, and advocating for the protection of endangered species.

### **Sustainable Practices:**

In addition to raising awareness, the eco club advocates for the adoption of sustainable practices on campus. This includes promoting energy conservation, water efficiency, and the use of eco-friendly alternatives to single-use plastics.

### **Impact and Achievements:**

- Increased awareness and consciousness about environmental issues among students and staff.
- Significant contribution to green cover through tree plantation drives.
- Reduction in campus waste generation and improved waste management practices.
- Preservation of local biodiversity through conservation initiatives.
- Adoption of sustainable practices leading to a more environmentally conscious campus community.
- Harvesting of potato and other green leafy vegetables created a satisfaction among students
- Preparation of kichen swapped liquid form westage vegetables

## **Challenges and Future Directions:**

While the eco club has made commendable progress, it continues to face challenges such as limited resources, logistical constraints, and the need for greater engagement from the student body. Moving forward, the club aims to expand its outreach, strengthen partnerships with external stakeholders, and implement more innovative and impactful environmental initiatives.

## **Conclusion:**

In conclusion, the eco club managed by degree students has emerged as a dynamic force for environmental change within our campus community. Through its diverse activities and initiatives, the club has not only raised awareness but also inspired meaningful action towards a more sustainable future. With continued support and collaboration, the club is poised to make even greater strides in promoting environmental stewardship and sustainability.
