

TTWRDC (w) Siricilla
Department of Chemistry
Career guidance activities

1. Career guidance program:

Topic: Orientation program on higher education

Date of the program:12-11-2019

Objectives :

- To provide personalised guidance and support to individuals seeking to make informed career decisions.
- To help the students to identify potential career paths that align

About the program:

- An orientation program was conducted to all the final year students about their interest in higher education.
- Discussed about EEE (Education, Employability, Entrepreneur) opportunities in all the subjects .
- Discussed about various opportunities for pg. Chemistry interested students.
- Provided the information regarding pg specialisation courses in all state universities and Central universities.

Feedback:

Akhila – MBZC 3rd year

- This session was very much required as when it comes to decide what to opt for our career that is going to be beneficial for us in future.

Bindu - MBZC -3rd year

- This session was very informative and helped the students to choose appropriate fields

2.Orientation program on IIT JAM

Date of the program: 10-11-2021

Objectives:

To educate the students to study in IITs, IISc, NITs for MSc and other post-graduation courses.

To give information about integrated PhD in Chemistry.

About the program:

An orientation program was conducted by the department of chemistry for the final year students about IIT JAM . A detailed discussion on exam pattern, syllabus is given to the students. A structure study material has been provided to students.

Feedback:

1.Swarna Mala: MPCs-3rd year

We got clear idea about IIT JAM from this session. It is useful to prepare for National level entrance exams.

2.Monika : BZC – 3rd year

From this session we understood the difference between IIT JAM. We came to know which colleges will give admissions and how to crack the exams in coming entrance exams.

3. Webinar on Career prospects Of Chemistry

Date of the program:

Date of the program: 13-04-2023

Objectives:

- To provide guidance and assistance for the students to achieve their career goals.
- To create awareness among students regarding available career options and help them in identifying their career objectives with graduation in Chemistry.

About the program:

Department of Chemistry conducted a webinar on Career prospects in chemistry for all BSc life science students. Prof Madhusudan Reddy, S R R government Degree college. An eminent motivation speaker gave the career scope of chemistry. A detailed interactive session to discover the career options that could be explored with chemistry as a discipline

Feedback from the students:

Deepti- MBZC 2nd year

It is useful webinar to understand different opportunities after completion of B.SC Chemistry.

Swathi- MBZC 3rd year

From this webinar we understood about the different universities offering PG chemistry and integrated PhD in chemistry.
